

Sun City Grand Ham Radio SIG

October Meeting

Friday, October 25th—1:00 PM

AGUA FRIA ROOM

Cimarron Building

17100 Clearview Avenue

(Please note the meeting room change)

We will have two presentations this month:

What is D-STAR?

Presented by Ron Raisanen, K7NLF

D-STAR (Digital Smart Technologies for Amateur Radio) is a digital voice and data protocol for Amateur Radio. Ron's presentation will include a discussion of D-STAR repeaters, Gateways, Reflectors, and Hotspots.

Winter Field Day 2020

Detailed Planning Session

We will be going through the detailed planning for our January, 2020 Winter Field Day event being held in Sun City Grand. We need several staff members including a Safety Officer and a IT Manager. We will be discussing the planned physical layout, radios, antennas, shelter, power plan, public safety displays, and a number of other details. There will be a sign-up sheet for radio operating and computer logging positions. We will be applying for a special event callsign. We need volunteers as well as your input and ideas.
